

Cratex[®] Rubberized Abrasives

Premium silicon carbide wheels, shapes and points

The perfect choice for a wide range of smoothing, light deburring, cleaning and polishing applications. For use on any metal and some non-metallic surfaces that must be smoothed or polished - especially in situations that require adherence to tight dimensional tolerances.

PRODUCT FEATURES

- Premium quality silicon carbide abrasive
- Made with oil-resistant chemical rubber
- Unique cushioned action
- Cuts freely, smoothly & softly without gouging or digging into the work surface
- Resists clogging or smearing
- Available in Coarse, Medium, Fine and Extra Fine Grits
